## Three-Day Hands-On Training Program on CNC Integrated Hybrid Metal 3D Printing

### What you'll learn:

- Design and manufacture your own part using a state-of-the-art hybrid CNC 3D metal printer.
- Small batch sizes (maximum 5 participants) for personalized learning
- Understand the complete 3D printing workflow –from design and preparation to printing and post-processing.
- Expert guidance from leading operators, scientists, and faculty members specializing in 3D printing at IIT Delhi

### Registration Details:

- Registration Fees: ₹ 25000 only (Includes taxes, shared accommodation, and meals)
- Last date for registration and fee payment: February 28, 2025.
- Confirmation of participation: March 1, 2025

**Early bird discount: 10% if registered by February 21, 2025**

### Training Batches Start Dates:

- **Batch 1 - March 10-12, 2025**
- **Batch 2 - March 19-21, 2025**
- **Batch 3 - March 26-28, 2025**
